

P.U.(A) 328/86
FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING
CONSTRUCTION) (SAFETY) REGULATIONS 1986
PART X - SCAFFOLDS

Regulation 86. Working platforms.

Every working platform from which a person is liable to fall more than 3 metres shall be -

- (a) either closely boarded, planked and plated, or a platform consisting of open metal work having interstices none of which exceeds 3,870 square millimetres in area;
- (b) at least 635 millimetres wide if the platform is used as a footing only and not for the deposit of any materials;
- (c) at least 860 millimetres wide if the platform is used for the deposit of material; and
- (d) at least 1.1 metres wide if the platform is used for the support of any higher platform.
