

**FLOWCHART ON APPLICATION OF PRINCIPAL SUPPLIERS FOR INCONSISTENCY IN CLASSIFICATION OF HAZARDOUS CHEMICALS BASED ON LIST OF CLASSIFIED CHEMICALS IN PART 1 OF INDUSTRY CODE OF PRACTICE (ICOP CHC)**

**NOTES:**

1. Submission to the Director General of DOSH:
  - a. Official application letter by principle supplier.
  - b. Data and justification supporting the application.
 Data submitted must include testing data/information regarding classification criteria, relevant testing method with justification and data sources.  
 Example:
  - Hazard Class : Flammable liquids; Test data – *flash point & initial boiling point*; Test method – EN ISO 1516 *close cup method*
  - Hazard Class: *Acute Toxicity (Inhalation)*; Test data – LC<sub>50</sub> (4 hrs, rat); Test method – OECD TG 436/ 403 or equivalent
2. CLASS Regulations Technical Committee comprises of the ICOP Drafting Committee members, DOSH Officers related to the implementation of the CLASS Regulations 2013, certified toxicologists, academicians and independent consultants. The frequency of meetings is two (2) times a year or based on demand.
3. Principal supplier is a supplier who formulates, manufactures, imports, recycles or reformulates a hazardous chemical
4. ICOP CHC – Industry Code of Practice on Chemical Classification and Hazard Communication approved by Minister.
5. CLASS Regulations 2013 – Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) 2013
